

TELEGRAPHIC.
ARRIVAL OF THE STEAMSHIP
CANADA.

HALIFAX, June 6, 8 P. M.
The steamship Canada, with advices from Liverpool to the 23rd ult., is just in. There was an increased pressure in the money market at London, and only first class bills were taken by the bank at three per cent. Consols closed at 100 1/4 for money. American securities were firm and unchanged.

The news brought to us by this arrival is of a highly important character. At the urgent request of the Emperor of China, the American, French and English ships of war, in eastern waters, have undertaken to protect Nankin and Shanghai from the Rebels.

The French fleet had been ordered to the Dardanelles which caused great excitement in the French funds. It is believed Napoleon has threatened Russia with war, in case she persists in her demands on Turkey.

The diplomatic relations between Switzerland and Austria, are entirely broken off.

The affairs in Burmah are unfavorable to the British interests.

In the British Parliament, on the 27th ult., Lord Clarendon and Russell stated that the French and English Ministers at Constantinople were acting in concert, and that the integrity of the Borte would be maintained, and expressed a hope that Russia will insist on nothing incompatible therewith, but further said, that in the present state of the question they could not give further indications as to the course the British Government would adopt.

A report, that the Russian forces had entered Turkey was circulated at Paris, which violently agitated the Bourse.

It was rumored that Napoleon had assured the Russian minister, that, much as he desired the peace of Europe, yet he could not hesitate to change his policy, if Russia should force measures hostile to France and the East.

The result of the elections in Holland, will leave the ministry in the minority. A note from the Papa See had been laid before the Chambers on the 22d, but up to the latest dates, no answer had been given to the communication. In the meantime, the Roman Catholic Prelates were active.

The Austrian charge had been withdrawn from Switzerland, and the Swiss Envoy at Vienna had been recalled, so the diplomatic relations between both countries had ceased as before stated. The Vienna papers state that recent developments show that the conspiracy at Rastock was widely extended, compromising several persons of distinction.

Advices from Turkey of the 1st ult., say that the Porte had refused to accept the Russian ultimatum, and Menschikoff had embarked on board a Russian ship of war at Constantinople, and sailed for Odessa.

The French Ambassador had ordered the French fleet to the Dardanelles, in order to prevent any attempt made by Russia to pass the Straits; but on the 20th ult. the French squadron was at Salamis, and on the 12th the British fleet remained at Malta, waiting reinforcements from England.

In despatches to the British Admiralty, Admiral Dandias, the commander of the fleet at Malta, stated that Menschikoff had remained on board the Russian vessel, but had renewed his offer to the Porte, and given him to the 20th ult., to decide, at the same time threatening that if the Porte did not comply, he (Menschikoff) would then finally leave.

The St. Petersburg papers report a victory over the Circassians on the hill of Karadona.

Kossuth had attended a meeting of the Friends of Italy at London, and stated in a speech that Mazzini had arrived in England.

O'Donohue, the Irish Patriot, had escaped from Australia, and was on his way to America.

FROM CALIFORNIA.

NEW YORK, June 8.
The steamer El Dorado has arrived at this port from Aspinwall. She brings dates from San Francisco to the 7th ult., \$700,000 in gold, and the California mails which were brought down to Panama by the steamer Panama.

A terrible affray had taken place at San Francisco, between a party of squatters and the Sheriff, assisted by a party of citizens. Two of the citizens were shot dead, and the Sheriff was mortally wounded; intense excitement followed, during which the crew of the Revenue Cutter Ewing arrived, the commander of which promptly offered his services to the Mayor.

The excitement continued up to the last moments. The affair grew out of an attempt to eject a squatter named John Power.

A destructive fire occurred at San Francisco, on the 4th May, by which the Rossetter House and several adjoining buildings were destroyed. The loss is set down at \$120,000. Several inmates of the Hotel perished in the flames, one of them, a Mr. Hubbard of Ohio.

The buildings burned, were on Bush and Sasse streets.

The County Recorder's office at San Jose, was burned by incendiaries.

The yield of gold continued to be a full average.

The Van Dieman's Land Herald, denies a report which was current, that O'Donohue, the Irish Patriot, was on parole when he escaped.

BALTIMORE, June 9.
The first branch of the City Council passed an ordinance by 14 to 4, endorsing the bonds of the Pittsburgh and Connellsville Railway Company. The directors of the Baltimore and Ohio Railway, yesterday, resolved, after the first of next July to reduce the fare between this city and Washington to one dollar and twenty-five cents.

The assessed value of property in Baltimore, is \$104,801,438, showing an increase of \$18,763 since 1848.

PHILADELPHIA, June 10.
Arthur Spring was executed to-day at a quarter past 11 o'clock this morning, in the yard of the County Prison, in the presence of about five hundred people.

The Rev'd Messrs. Strut, Kensil and Alexander, remained with the prisoner all night, in his cell; he slept about four hours; the rest of the night was spent in religious exercise. Early this morning, a letter from Governor Bigler, in which he declined to exercise the executive clemency, was read to the prisoner.

Spring continued to persist in asserting his innocence, also in the innocence of his son, but said the latter had brought the money and put it in his (the prisoner's) pocket.

Upon reaching the gallows, a hymn was sung; at the conclusion, the Rev. Mr. Strut asked the prisoner if he was a sinner, to which he replied: "No, sir; I never saw the man in my life."

Mr. Strut then asked him if he was guilty of the murder of Rink? to which he replied, "No sir—I never saw the man in my life."

The prisoner was then asked if his son was innocent? to which he replied: "I believe he is, and that he had no more to do with the murder than I had."

After prayer by the Rev. Mr. Kensil, the rope was put around the neck of the prisoner, when he again asserted positively that his son was innocent, without any qualification.

The drop then fell, and Spring died without a struggle, with the exception of a slight contraction of his legs.

NEW ORLEANS, June 8.
The steamer Daniel Webster arrived here this morning, with two weeks later news from California.

The Daniel Webster connected with the steamer Sierra Nevada, which makes the time from San Francisco to this port in just twenty days and a half.

The Webster left in port, at San Juan, the sloop of war Albany and the brig Indus, the latter bound for New York.

The steamer Prometheus had sailed for New York, with four hundred passengers on the 31st ult.

The news from California is unimportant. The accounts from the mining districts are favorable. The Sonora Herald reports many lucky discoveries, and the finding of some large lumps. New mines have been discovered where the miners were finding large lumps of gold, ranging in value from three to nine hundred dollars.

We have advices from the Sandwich Islands to the 16th April. The King, at the opening of the Parliament, had nominated his adopted son, Scholibo, as his successor, which was sanctioned by the nobles.

The ship Huguenot, from New York, arrived at San Francisco on the 16th ult.

LATER FROM MEXICO AND TEXAS.

NEW ORLEANS, June 8.
By the arrival of the schr. Bonita, at this port, we have dates from the city of Mexico to the 24th ult. The news is of but little interest.

Santa Anna had been so annoyed by the custom of officers smoking in the theatre, that he had issued a decree suppressing the nuisance.

Over forty papers had been suppressed since the issuing of the recent decree against the press.

The army is being reorganized, and is to be divided into two classes, active and permanent. The whole number is to be 91,000 men, of which 65,000 is to be a permanent force, and 26,000 to be recruited by volunteers, enlistment or drawing lots. The National Guard is to be incorporated into the active militia.

Advices from Texas of the 3d inst. say that probably there are rich deposits of gold in the interior, but it is too far below the surface to be reached with the implements in the hands of the miners at present.

MONTREAL, June 10.
Father Gavazzi delivered a lecture in this city yesterday afternoon, during the delivery of which, an immense crowd collected in the vicinity of the church, and so pressed upon the police force who were guarding the church, that the assistance of a detachment of the soldiers from the garrison had to be called. After the meeting was over, and Gavazzi and his audience were leaving; they were set on by pistols by the mob; whereupon the military fired one round, killing one or two, and wounding several, though the number killed is nothing more than conjecture. The mob then fell back and the military were drawn up, prepared for any further emergency. The city was in a state of great excitement last night.

PHILADELPHIA, June 7.
1,500 Bees were being offered during the week, and sales were effected at 7 1/2¢ per prime. Hogs sold to a fair extent at 6 1/2¢ to 7 1/2¢, and very choice 7 1/2¢ per lb net. Cows ranged from \$10 to \$40 each. Sheep \$2 to 4 1/2¢; and Lambs \$1 1/2 to 2 1/2¢.

NEW YORK, June 7.
The supply of Beef Cattle having increased, prices fell off a shade, and the market closed dull at 9 to 10 1/2¢. Sheep remaining over unsold 4,000. Cows and Lambs sold at 3 1/2 to 3 3/4¢ for Sheep; 2 1/2 to 3 1/2¢ for Lambs. Cows and Calves ranged from \$25 to \$50.

SAVANNAH, Ga., June 8.
The passenger cars, last night, when going into Macon, were thrown down an embankment. The mail guard was killed, and one of the passengers severely injured, among whom is A. Stevens, Member Congress.

PHILADELPHIA, June 9.
Arthur Spring is to be executed to-morrow. He continues rather indifferent to his fate. He had made a statement exonerating his son, but yesterday he retracted it; but to day again he re-affirms that his son knew nothing of the murder.

Cincinnati has five hundred and fifty-eight gambling establishments. A pretty good tax this upon honest men.

PHILADELPHIA, June 10.
A correspondent of the Tribune, who says that he knows, asserts that the circulation of the London Times, is only twenty-four thousand. It has the reputation of forty thousand.

There are now in California about twenty-two thousand Chinamen. The capital invested and owned by the Chinese in the State, is one million of dollars.

The French government maintains forty thousand four hundred and twenty-eight priests, at an annual expense of about nine millions of dollars.

The demand is good for land warrants, and quotations are improving. Thompson quotes them; 160 acres, \$170 and \$175; 80 acres \$85 and \$87; 40 acres \$45 and \$44.

THE MARKETS.

JACKSON June 16, 1853.

Flour—2 bbl \$4.25
Wheat—2 bush. 70c.
Corn—2 bush. 50c.
Oats—2 bush. 35c.
Dried Apples—\$1.25
White Beans—\$1.25@1.50.

Clover Seed—2 bush. 60c.

CHILLICOTHE, June 7 1853
Wheat, 75¢ @ 80. Corn, 45¢ @ 50. Oats, 40¢ @ 45.

CHEERY FACTORY.—We have departed from our usual rule in regard to the advertising of Medicines, in admitting the notice of the Cherry Factory to our columns. It is not a patent medicine, but one, the contents of which, are well known to the medical profession, and which has proved highly beneficial in the case of a number of our acquaintances, who were seriously afflicted with pulmonary complaints. Some of our most skillful and eminent physicians recommend it to their patients in their regular practice, and we feel that we are conferring a favor upon the public by making known its virtues. —Louisville Ch. Advocate.

ANOTHER SCIENTIFIC WONDER! PEPERIN, the Tonic Digestive Fluid, or Gastric Juice. A great Dyspepsia Cure, prepared from Rennet, or the fourth stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11 North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Liver Complaint, Constipation, and Debility arising after Nature's own method, by Nature's own agent, the Gastric Juice. See Advertisement in another column.

An ounce of just is worth a pound of theory; and the swarm of conclusive facts that cluster round that incomparable preparation, Houghton's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, establish its value as a tonic and restorative, are such as would prevent incredulity itself from questioning its efficacy. In all cases of disease of stomach, whether acute or chronic, it may be recommended for its soothing, cordial, and renovating influence. Dyspepsia, heartburn, loss of appetite, nausea, nervous tremors, relaxation, debility, &c., are relieved by the Bitters in a very short space of time; and a perseverance in their use never fails to work a thorough cure. Oct. 14, '52

DIED.

In Seaside Township, on the 8th inst., SARAH wife of SAMUEL DICKSON, aged 52 years.

New Advertisements.

NOTICE.

DR. H. ADAMS,

PROFESSOR HIS PROFESSIONAL SERVICES TO THE CITIZENS OF JACKSON AND VICINITY.

—OFFICE—
On Pearl street, next door to the Baptist Church, June 16, 1853. 12—

NOTICE TO BRIDGE BUILDERS!!

THERE will be let on the 10th inst. at 10 o'clock, on Saturday, June 23d, A. D. 1853, the building of a certain Bridge across PAINE'S RUN, in Milton township, Jackson county, near the residence of Shepherd Strang.

By order of Commissioners.
JOHN STEPHENSON, And J. C. June 16, 1853. 12—

was dreadfully distressed, for she knew not what to do. At last the doctor came and he saw that the old man had an attack of brain fever, for which he at once began treating him. No other thought now for poor Annette but her father; she never left his side all that day and the next night. About morning he slept, and Annette was about to seek repose herself in a chair by his side, when the maid servant announced the visit of a strange gentleman.

"A strange gentleman!" exclaimed Annette, rising, "my father is very ill, and I cannot leave him."

Sheriff's Sale.

SAMUEL DEWEY, Sheriff's Sale on Partition.

Together with a general assortment of notions.

All of which will be served up in a style to please the taste of the most fastidious epicure. Give us a call. C. P. HYATT.

—Jackson, June 9, 1853—14.

NOTICE TO TRAVELLERS.

Within the past three months fully five hundred persons have lost their lives by accidents on Railroads, Steamboats and Sailing vessels.

This startling fact should suggest to those who contemplate journeying, the importance of insuring their lives, and making a certain provision for families or dependents in case of death.

The undersigned is agent for the Kentucky Mutual Life Insurance Company, which insures healthily lives on favorable terms.

D. A. HOFFMAN, Medical Examiner.

State of Asa W. Isham.

NOTICE is hereby given, that the subscribers have been appointed Administratrix and Administrator on the estate of Asa W. Isham, late of Jackson county deceased.

D. LEACH.
June 9, 53.

THE CONTRACT OF INSURANCE

OFFERS an expedient, by means of which, prudent men escape losses. They transfer to others the risks which inevitably cause them. For a small consideration, these risks, which might in an unlucky event, ruin individuals, are safely assumed by Companies well organized and judiciously managed. Such an institution is the

COMPANY OF HARTFORD, CONN.

INCORPORATED 1825.

This Office has now transacted business for more than a quarter of a century, and insured real and personal property against loss by Fire and Water to the value of more than

TWO HUNDRED MILLIONS OF DOLLARS IN THE WESTERN COUNTRY.

Several Thousand Losses have been incurred upon the above risks, all of which have been adjusted at the

General Agency Office

At CINCINNATI and paid with the utmost promptitude according to the conditions of the Policy, as may be seen by the receipts of the several claimants on file.

This Company bases its operations upon such a perfected plan of cash premiums, well scattered risks and long experience in estimating hazards, that the interests of all concerned are protected. The Company receives from almost innumerable sources and in small sums, a large annual deposit.

Its Annual Premiums and Capital Stock Exceed \$1,000,000!

From this fund, held as a public trust, losses are paid. To secure for the public and the Company a permanent ability to meet every fair demand, all erroneous or fraudulent claims are of course rejected. This is the only plan of Insurance which can long preserve public confidence, and the undersigned agent confidently invites his friends to secure themselves at his Agency, against loss by

FIRE, OR THE PERILS OF NAVIGATION.

The advantages of this contract need scarcely be upon wealthy merchants, for they rarely neglect it, and if they do, fires leave them other resources. It is especially valuable to laboring men, mechanics and others of moderate means—who, perhaps, have little else than a home and its contents in the world.

These should never neglect to insure; a fire that may visit them at any hour would leave them homeless, and with no capital but their labor to begin again the struggle of life, and years of toil and watching must pass before they can regain what they have lost. Indeed, it is ever done. To such, insurance is a duty. If the individual is worth little, the expense is less if he owns much property, still, the expense is trifling, and by investing a few dollars he is safe. If he is overtaken by misfortune and his all is in ashes, he receives a recompense in cash equal to his loss, and may soon restore what has been destroyed.

POLICIES issued at all times, upon favorable terms by A. ISHAM agent, for Jackson and Jackson county, June 9, 53—1m.

METRIC WITH A SHARP STICK.

A my friend in the town of Jackson has got into a terrible stew, because he cannot decide among other people, as liars, without being told of it, and having to acknowledge the corn; I will try to ease his conscience. He says he never said his goods were inferior, and he never accused any one of his knowledge. He says he bought his Molasses at 21 1/2¢ per gallon by the barrel, and his Sugar at 4 1/2¢ per lb in barrels, when the former was worth 30 cents per gallon and the latter at 4 1/2¢ @ 5 1/2¢, cents per lb by the barrel, in the same market.

As to the subject of his keeping different kinds of goods that is as handy as it was to the miller to keep two half bushels—one to sell to customers and the other to give to his mill. Concerning his coffee being exhibited in Portsmouth I know nothing concerning it; which, with the subject of "Free tickets" had its origin in his venerable cranium, which if placed on the body of a donkey. (Lord save the animal!) would make a very respectable appearance. About opposition to foreign trade, he is complaining of others for acting out his much cherished principles of Protection to home industry. His good character you can find it over his own signature in two advertisements in the Jackson Standard, and his coffee being exhibited in Portsmouth I know nothing concerning it; which, with the subject of "Free tickets" had its origin in his venerable cranium, which if placed on the body of a donkey. (Lord save the animal!) would make a very respectable appearance. (Lord save the animal!) would make a very respectable appearance. About opposition to foreign trade, he is complaining of others for acting out his much cherished principles of Protection to home industry. His good character you can find it over his own signature in two advertisements in the Jackson Standard, and his coffee being exhibited in Portsmouth I know nothing concerning it; which, with the subject of "Free tickets" had its origin in his venerable cranium, which if placed on the body of a donkey. (Lord save the animal!) would make a very respectable appearance.
